## DETAILED ACTION

### *Claim Objections*

Claims 1 and 2 are objected to because of the following informalities: in claim 2, line 2, "mo%" should be replaced with --mol%--. Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kohl et al. (6,165,890).

Re claim 1, Kohl et al. disclose a step of coating the surface of a first dielectric film (32) formed on a semiconductor substrate with a cyclic olefin based addition polymer (30) containing at least one repeating unit with the general formula:

wherein A<sup>1</sup> to A<sup>4</sup> each independently represents a hydrogen atom or a hydrocarbon group having 1-10 carbon atoms; and m is 0 or 1 (Col. 6, lines 1-30); a step of patterning the cyclic olefin based addition polymer as a void-forming polymer (Fig. 2B); a step of forming a metallic wiring (34) in the pattern formed on the void-forming polymer (See Fig. 2C); a step of forming a second dielectric film (36) on the void-forming polymer containing a metallic wiring (See Fig. 2E); and a step of removing the void-forming polymer between the multilayered wirings by heating to form a cavity between the metallic wirings (See Fig. 2F and Col. 13, line 64-Col. 14, line 9).

### ***Allowable Subject Matter***

Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
